The sociology of education has been at the forefront of new developments in sociological theory. This book examines and criticizes a number of these new developments and discusses some empirical work on issues of current concern. One of the few books

Educability, Schools and Ideology (RLE Edu L)

The education process is a highly complex one. In equipping children for these adult roles a whole range of different forms of knowledge are transmitted. They include the basic fundamental skills of numeracy and literacy essential in an industrial society; they also include the learning of certain types of skills which are necessary for many vocational type jobs; the development of abstract
