The 3 Types of Innovation: Product, Process, & Business ...

While product innovation is often visible to your customers, a change in process is typically only seen and valued internally. Speaking generally, changes in process reduce costs of production more often than they drive an increase in revenue. Of the three types of innovation, process is typically the lowest-risk.

The Innovation Process in the Manufacturing Industry - CPI

The first step in the innovation process is to clarify what your business's innovation goals are and why you want, or need to engage in this kind of innovation. It is important to involve a good cross section of the business in developing these goals, utilising the expertise within the organisation, and even extending this to the customer and client network to get the market view. Step 2
