Marking the Mind: A History of Memory by Kurt Danziger

Marking the Mind has 9 ratings and 2 reviews. mali said: This is a fascinating and overall well-written history of various ideas of memory and memory art.

Marking the Mind by Kurt Danziger - cambridge.org

The book *Marking the Mind: A History of Memory*, provides a very interesting, readable, and concise account of how our conceptions of memory have developed over the ages. While reading this book, one readily discovers how the development of psychology as an empirical science has resulted in separating the study of memory from any relationship to context or meaning; this book has many implications for contemporary neuropsychological practice the reader is often led to think.

(PDF) Review of "Marking the Mind" by Kurt Danziger

Danziger's previous works, *Constructing the Subject* (1990) and *Naming the Mind*, broke new ground in the history of psychology and are now regarded as modern classics in the field. *Marking the*

Marking the Mind: A History of Memory - Kurt Danziger ...

Memory is one of the few psychological concepts with a truly ancient lineage. Presenting a history of the interrelated changes in memory tasks, memory technology and ideas about memory from antiquity to the late twentieth century, this book confronts psychology's 'short present' with its 'long past'. Kurt Danziger, one of the most influential
