The New Kingmakers - New Relic

O'Grady discusses in his book, The New Kingmakers: How Developers Con-quered the World. In it, Stephen explains how this shift began and how it will shape the future of business, as a whole, in the years to come. He takes a data-driven, realistic look at the new realities facing today's IT organiza-tions and the role that development teams are playing in creating them. At New Relic, we

The New Kingmakers: How Developers Conquered the World

The New Kingmakers is a great summary of the last 15 years in the IT industry. It shows how cheap hardware and Open Source software fundamentally changed the dynamic of software driven companies what by now are nearly all companies.

The New Kingmakers Actionable Books

The New Kingmakers describes fragmentation, which is a valid concern, but that problem is less about the technology and more about the decision and purchasing aspects of technology. The second argument is, well, what happens if all the developers quit and the organization can't find developers that know those technologies.

The New Kingmakers: How Developers Conquered the World ...

The New Kingmakers documents the rise of the developer class, and provides strategies for companies to adapt to the new technology landscape. From recruiting to retention, it provides a playbook to work more efficiently and effectively with the most important members of your organization.

The Tech Oligopoly Part I | The New Kingmakers

The New Kingmakers. In this first part of a three-part series, we discuss the strategic monopolization of AI talent by the giants of the tech industry and how an increase in speed, scale and ambition is resulting in an AI talent war never seen before.
