James R. Brockmole is a Reader in the Department of Psychology at the University of Edinburgh. His research focuses on understanding how human observers acquire information about objects and scenes in real time, how that information is retained in memory, and how stored knowledge about the visual world in turn guides behavior. [The Visual World in Memory by Brockmole James - Goodreads](#)

The Visual World in Me Research in human memory for visual material varies tremendously across the time scales, stimuli, and scenarios of interest. Because of these distinct pursuits, research in the field of 'visual memory' is in practice rather compartmentalized and as such is disseminated across a range of literatures.
