Doherty describes not pretence is an early manifestation of only research on the ability to predict some of the skills involved in theory of others beliefs (the unexpected transfer mind, or that it is an early manifesta- task), but also research that tests the rion of theory of mind itself. Doherty ability to explain or manipulate others supports the former view, arguing that beliefs. He

"For the uninitiated, Doherty's book is a useful and very readable account of the current state of play in the developmental literature on theory of mind. For old hands it also gives an authoritative update on the influential view that developments in 2- to 4-year-olds' understanding of the mind reflect more general developments in understanding representations." - Ian Apperly, School of

Theory of mind - Wikipedia

Theory of mind is the ability to attribute mental states (beliefs, intents, desires, emotions, knowledge, etc.) to oneself, and to others, and to understand that others have beliefs, desires, intentions, and perspectives that are different from one's own. Theory of mind is crucial for everyday human social interactions and is used when
