To request a network license file for your Autodesk software you will need to find the Host Name and Physical address of the server(s) that will be running the HTML. name Attribute

Definition and Usage. The name attribute is not supported in HTML5. Use the id attribute instead. The name attribute specifies the name of an anchor.

uname - Wikipedia

uname (short for unix name) is a computer program in Unix and Unix-like computer operating systems that prints the name, version and other details about the current CRLF Injection attacks and HTTP Response Splitting | Acunetix

CRLF injection, or HTTP response splitting, is a type of injection attack that can lead to Cross-site Scripting (XSS) and web cache poisoning among others. CRLF refers to the Carriage Return and Line Feed sequence of special characters. These two special characters represent the End of Line (EOL) marker for many internet protocols, including HTTP.
