Education in the United States - Wikipedia

Education in the United States is provided by public,  
private, and home schools. State governments set overall  
educational standards, often mandate standardized tests for

K-12 public school systems and supervise, usually through a board of regents, state colleges, and universities.

At the very least, Margaret A. Nash's study of women and American higher education should be savored, since *Women's Education in the United States, 1780-1840* is an intellectual treat. Long before colleges and universities admitted women, a growing variety of academies, institutes, and seminaries opened the higher learning to a small but significant cohort of white middle class students. Nash's
